About AVEO Pharmaceuticals, Inc.

AVEO is an oncology-focused biopharmaceutical company committed to delivering medicines that provide a better life for cancer patients. AVEO's strategy is to focus its resources toward development and commercialization of its product candidates in North America, while leveraging partnerships to support development and commercialization in other geographies. AVEO's lead candidate, tivozanib, is approved as FOTIVDA[®] in the European Union and other countries in the EUSA territory for the treatment of adult patients with advanced RCC. AVEO is committed to creating an environment of diversity and inclusion as a foundation for innovation.
